"I would like to say that my 7 months here have been really great, all of the staff are friendly and helpful, which is fantastic as I am not the most technical person on this planet, but I was made most welcome and encouraged to participate in all events. The atmosphere is friendly, plants abound, a warm welcome is assured, and it has been a pleasure to be associated with everyone at NCVS".

"I have found NCVS to be an extremely friendly & beneficial place to work. The links that I have had here with voluntary sector projects are excellent and the efficient office systems are a real bonus especially during hectic times. The office is easy for visitors to get to and there is the added bonus of being situated along side the many other voluntary sector organisations based in MEA House."
